Gambling Data Curb Urged

CONVICTED—A U. S. Air Force court martial has convicted Cpl. Gustav Mueller (above) of St. Paul, Minn., of attempting to give military information to Russia. He was sentenced to five years imprisonment and to dishonorable discharge from the Air Force. He was tried at Garmisch-Partenkirchen, Germany. (AP Wirephoto).

WASHINGTON, April 17.—(AP)—Attorney General McGrath said today that big time gamblers apparently have moved into amateur and professional sports with large scale operations.

He urged that congress crack down on the organized gamblers by forbidding the sending of gambling information across state lines.

McGrath etestified before a senate commerce subcommittee. The group is considering a bill to ban interstate transmission of gambling information.

Favoring the measure, McGrath said congress could give horse race bookmakers a "knockout blow" by denying them the use of telephone, telegraph and radio information needed in their operations.

Chairman McFarland (D-Ariz) asked McGrath if the justice department has any evidence of a "national crime syndicate."

McGrath replied: "I could not with honesty say that we know there is any great syndicate presided over by any great czar."

He added that this was "not to deny" there are "big business operations" in individual cities.

In addition to illegal bookmaking on racing, the gamblers "have apparently moved into large scale betting operations in such amateur and professional events as baseball, basketball and football," McGrath said.

He added: "It is fairly obvious that none of these betting operations of any size could be maintained without telephone, tele-

Iran Is Becoming Trouble Spot For State Department

WASHINGTON, April 17.—(AP)—A U. S. survey mission soon may be sent to strategically-important Iran—now in the grip of an economic crisis and rising Red pressure. The big question: What, if anything, can America do?

No on-the-spot study has been decided upon yet, it was said. However, Secretary of State Acheson is reported deeply concerned over the Iranian situation and has assigned it a high priority among the urgent problems under department consideration.

The situation is complicated by the fact that Iran, along with Greece and Turkey, is on the front line of the cold war in the oil-rich Middle East.. It is under constant Russian propaganda pressure from the outside while a Communist political group, the Tudeh party, is gaining strength inside.

Some degree of politaical unrest also has set in, according to the latest information given Acheson. The government is said to be running into serious financial difficulties because it has had to dig into its reserves of American dollars and British pounds in order to provide food for the hungry.

Officials privately concede that although the situation had become very bad by the end of last year—not long after the Shah of Iran made his highly-successful good will tour to the United States—the state department was reluctant to believe that Iran was in serious trouble and needed outside help.

The Iranians have repeatedly asked the United States for economic assistance. They obtained a loan of $26,000,000 two years ago to buy surplus military equipment and they are getting some military aid under the current foreign arms program but no economic help.

M'GRATH FAILS TO FIND TOP SYNDICATE

Georgia's Primary Election Plan OK'd

WASHINGTON, April 17.—(AP)—Georgia's hotly disputed county unit election system weathered a supreme court test today. The tribunal affirmed a lower court decision which had the effect of upholding the legality of the Georgia system.

The supreme court's action was announced in an unsigned opinion. The vote was 7-2. Justice Douglas wrote a dissenting opinion with Justice Black concurring.

That meant the majority was composed of Chief Justice Vinson and Associate Justices Reed, Frankfurter, Jackson, Burton, Clark and Minton.

Critics of the system call it a unique protector of rural political power in Georgia and an important factor in the entrenched forces of Gov. Herman Talmadge.

Two Georgia voters, Benard South and Marold C. Fleming, asked the supreme court to invalidate the system before the state Democratic primary is held on June 28.

The court's majority opinion today said:

Russia's Hasty Protest On Plane Is Chided By U.S.

WASHINGTON, April 17.—(AP)—The United States chided Russia today for lack of "calmness and restraint" in dealing with the alleged clash of American and Soviet planes.

The criticism was in a formal announcement that the U. S. will delay its reply to Moscow's note until all possible information about the incident can be collected and "the true facts determined by calm and thorough appraisal."

The statement said:

"This government believes that this careful approach is the only proper one in an important and delicate matter of international relations and regrets that the Soviet government has failed to show equal calmness and restraint."

Russia protested last Tuesday that on April 8 an American plane of the B29 type flew over Soviet Latvia. It said the plane fired on a Russian plane and

Raft Found But Missing Airplane Search Is Halted

COPENHAGEN, Denmark, Apr. 17.—(AP)—The big aerial search for the U. S. Navy patrol bomber which disappeared mysteriously over the Baltic sea with 10 men aboard was abandoned today.

The only possible clue to the fate of the plane, last heard from a week ago last Saturday at the same time the Russins said their fighters exchanged shots with an American bomber over Latvia, was a yellow life raft found Sunday floating in the sea.

The life raft, its food containers empty, was found by the little British freighter Beechland about 45 miles east of Stockholm, Sweden. The spot is 200 miles north of the Latvian city of Lepaya (Libau) where the Soviets say their fighters chased off a U. S. bomber.

The Beechland continued on its scheduled course to the Finnish port of Kotka where it is expected to arrive this afternoon.

The derelict raft will be flown back to Copenhagen, where U. S. Air Force officials will examine it to determine whether it belonged to the missing navy "Privateer" PB4Y. Although the Beechland radioed that no note was found on the raft, officials hope it may give up some clue as to what became of the bomber and its men.

General Relief Brought To Most Parts Of State

Much of Panhandle Reports Moisture Too Late For Grain

By the Associated Press

Belated spring rains moved on to the Gulf today after bringing general but spotted relief to drought conditions in large areas of the state.

Farm officials in the South Plains and Panhandle said the five-day session of rains was too late for much benefit to the dried-out wheat fields.

South Plains farmers and farm advisors agreed today that the rains, averaging a total of an inch and a half, were welcome but that more moisture is needed—and soon.

While the earea received rain intermittently since last Wednesday, in many places it was barely enough to settle the dust and heavy rains were spotty.

David W. Serrell, Lubbock County Agent, said farmers still need two or three inches before spring planting begins.

Agent Robert H. Gibson of Floydada said wheat was helped by the 1.5 inches which has fallen there so far. At Semonole County Agent L. H. McElroy said the half-inch which has fallen there would help prepare seedbeds. The rain was spotty in the far West county.

At Plainview, farmers said the rain was too late to help wheat and too early to aid row crop planting. Drought and greenbug infestation already had scored a decisive victory over dryland wheat, they said. The county had a total of 1.71 inches, of which .87 inches fell over the weekend.

Lynn County Agent W. D. Griffin said at Tahoka that 2.33 inches had fallen and would help the crop outlook considerably.

Only a quarter-inch had fallen in Terry county, said Loole Miller, secretary of the County PMA office at Brownfield.

In the Panhandle, John Neilson, Hutchinson County Agent said at Borger that "the drought was

FARMERS NOW ASK SUNSHINE FOR PLANTING

Weekend Moisture Total 2.71 Inches; General Over Area

Water was running out of the crek banks in Navarro county and the levels in the lakes and ponds were rising or going around the spillways Monday morning.

Farmers and owners of farms and ranches were jubilant, but were wishing for fair and warmer weather so that agricultural activities could hum.

Total rainfall in Corsicana since Thursday is 4.03 inches, according to the government gauge. The rain since Saturday morning amounted to 2.71 inches.

Reports from Lake Halbert, city reservoir, at 8 a. m. Monday said that the rain since Sunday morning was 2.40 inches—that the water level had risen one foot and the streams emptying into the lake in addition to Elm creek, the main feeder, still were pouring their loads of water into the basin,.

One telephone observer remarked after finding out the amount of rain:

"This will put that Chambers Creek pipeline out of business, at least temporarily."

(The pump and pipeline from Chambers creek to Lake Halbert is about finished and will be used to augment the water supply in the municipal reservoir when needed).

Richland and Chambers creek, main streams in Navarro county other than Trinity river, the eastern county boundary, were out of banks Monday morning. Smaller

WANDA WEEPS—Actress Wanda Hendrix wipes a tear as she takes the witness stand in Los Angeles in her suit for divorce from Audie Murphy, America's most decorated soldier of World War II. Trembling and in tears, she testified Murphy "criticized the way I dressed, the way I talked, the food I prepared and the way the house looked." (AP Wirephoto).

Farmers Warned Against Delays On Census Forms

Farmers who are asking for delays in filling out census forms and giving necessary answers to enumerators are causing census takers in the sixth district to fall behind schedule, said J. B. Smith, assistant census supervisor for the sixth district.

Smith said all farmers had the census forms at least 30 days in advance of the start of the census and that many haven't yet filled out the forms. Others, he said, ask the enumerator to come back tomorrow or next week.

"We have but 30 days to take the census," Smith said, "and we'll never get finished unless the farmers co-operate 100 per cent."

Our office urges the farmers to fill out the forms or be ready to spend a few minutes with the enumerator when he arrives at the farm.

If anyone continues to put off the enumerator by asking for more time, he will eventually be turned in as one who refused to answer census questions, Smith said.

"There is a penalty for refusing," he added.

In all other areas, except in some rural sections, the enumerators are about on schedule, the assistant supervisor said.

San Antonio Fete Is Opened With Alamo Pilgrimage

SAN ANTONIO, April 17—(AP)—The fifty-fifth annual weeklong fiesta celebrating the independence of Texas gathered momentum here today.

A solemn, reverent pilgrimage to the Alamo was to be held this afternoon when thousands of Texans will pay homage to the heroes of the Texas shrine.

Lewis Kayton, as King XXVII, will make his first public appearance for his week-long reign as King.

Tonight the colorful river pageant will be staged by the Texas Cavaliers. The theme "Fantasy of Fun" will be carried out in a long line of gaily recorded river floats.

Greece Pledged To Follow Policy Outlined By U. S.

ATHENS, April 17—(AP)—King Paul pledged today that Greece's new coalition government would carry out broad financial and administrative reforms recommended by American advisors administrating U. S. aid here.

In a speech opening the newly-elected parliament, the King repeated the American recommendations for Greek recovery which had served as a guide in forming the new cabinet of Premier Gen. Nicholas Plastiras. The prepared address had been drafted by the new coalition cabinet Sunday night.

The King told the 250-man national assembly the government will present "a broad program of stringent economy in public finance, more efficient organization of administrative services, increased production and more equitable distribution of tax burdens." The changes in taxation, he said, would be aimed at reducting the burden of the poor and increasing the taxes of the wealthier classes.

Former Solon Is Given Asquittal In Lobbying Case

WASHINGTON, April 17—(AP)—Former Representative Roger C. Slaughter of Kansas City was acquitted today of a charge of violating the lobbying act.

Federal District Judge Alexander Holtzoff made a ruling of innocent after a brief trial. He heard the case without a jury. Slaughter had waived a jury trial.

The government presented only two witnesses. One was Raymond J. Barnes, president of the North American Grain Association of New York. The other was Dillard Rogers, the house of representatives clerk in charge of receiving registrations by lobbyists.

With Barnes on the stand, Frank Patton, justice department attorney, introduced expense accounts and a record of a check for $7,500 paid to Slaughter for attorney's fees by the grain association.

Rogers was called to testify that Slaughter had not registered as a lobyist. The defense said it admitted that.

The whole case hinged then on whether Slaughter did lobbying.

He contended that he did not—that his services to the grain association were as an attorney. Holtzoff in effect ruled with him.

Red Invaders Get Meager Toehold On Hainan Island

TAIPEI, Formosa, April 17.—(AP)—A Communist invasion force gained a precarious toehold on the north coast of Hainan Island today after suffering heavy losses at sea, official Chinese Nationalist dispatches reported tonight.

Most of the invaders were killed, but up to a late hour tonight fighting was in progress west of the island capital of Hoihow, the dispatches stated.

The Reds were said to be under attack by Nationalist warplanes and ground forces.

The Reds attempted the 10-mile overwater crossing from the mainland Sunday night in more than 200 junks, the accounts said.

More than half of these were declared to have been sunk during the night by Nationalist warships, but some succeeded in landing on the land this morning.

The Communists have made a half-dozen previous small attempts to invade Hainan, but have failed each time. They have vowed to take the Nationalist stronghold this year, and all reports have depicted them as preparing for a major effort. Mention of the 200 junks suggests that the current attempt might be the start of thet big push, but details were lacking.

Re-Organization Of Treasury And NLRB Opposed

WASHINGTON, April 17—(AP)—The senate's expenditures committee recommended today that it reject Prsident Truman's re-organization plans for the national labor relations board and the treasury department.

The action amounted to another setback for Truman in his long skirmishing with Senator Taft (R-Ohio) over the country's labor laws and their administration. Taft introduced the resolution to disapprove the NLRB plan.

On NLRB, Truman's plan would end the independent powers now held by the NLRB counsel, Robert Denham. Republicans have assailed the proposal as an attempt to repeal by indirection a part of the Taft-Hartley law. The T-H law gave Denham's office its powers independent of the NLRB itself.

On the treasury, one of the main criticisms of Truman's plans is that it would put the comptroller of the currency under the secretary of the treasury. The comptroller supervises banks.

Members of the expenditures committee said resolutions of disapproval of both plans were adopted by better than a 2 to 1 margin.

The actions send the resolutions on to the senate, where the votes of 49 senators—a majority of the entire membership—are necessary for their adoption.

Fraley Trials To Begin Tuesday In District Court

Announcement of ready was made in the case of Mr. and Mrs. L. W. Fraley, charged by indictment with murder without malice, Monday morning in district court.

Selection of a jury is scheduled to start Tuesday morning from 40 veniremen summoned for the week.

The Blooming Grove couple is charged with the fatal shooting of W. F. Hollifield, a neighbor, at Blooming Grove, last August, as a result of a boundary disagreement.

The husband was tried last January and a hung jury resulted after District Judge A. P. Mays granted a severance on motion of the wife.

State and defense attorneys Monday indicated approximately 75 witnesses have been summoned.

The State is represented by Chas. T. Banister and Seton T. Holsey, county attorney and assistant, respectively, while the defendants are represented by Doyle Pevehouse and Senator George O. Nokes. Jr.

Announcement of ready was made in the State of Texas vs. Wm. Fitzgerald, charged with cattle theft, subject to the Fraley case.

Judge Kennerly Sets Hearing On Claims April 24

HOUSTON, April 17—(AP)—Federal Judge T. M. Kennerly today set April 24 as the date for a hearing on whether to appoint a board of commissioners to present the claims of the 8,485 claimants in the $200,000,000 Texas City explosion damage case.

Judge Kennerly last week ruled in favor of the plaintiffs in the suits, and the motion for appointment of the commissioners was made by a working committee of the plaintiffs' lawyers, who pointed out that the claimants have scattered, and that such appointments would save time.

The federal government has served notice that it will appeal the decision of Judge Kennerly's court.

13 KILLED AT JAFFA

TEL AVIV, Israel, April 17.—(AP)—Police reported today 13 persons were killed and 30 injured when a four story building collapsed last night in Jaffa. Twenty-five others are missing.

Jury Is Selected For Perjury Trial Of John Maragon

WASHINGTON, April 17—(AP)—John Maragon, who used to run in and out of the White House as a friend of presidential aide Harry Vaughan, went on trial today on charges of lying to a senate investigation committee.

The process of picking a jury got under way shortly after 9 a. m. (SCT) in the court of the U. S. District Judge Jennings Bailey.

The 55-year-old Maragon was flanked by three lawyers. He had nothing to say to reporters about what he has been doing the last few months while he has been on bail.

It took a little more than an hour to select a jury of nine men and three women. Included in the dozen were two negroes. The defense used up all challenges to which it was entitled.

The nature of questions the opposing lawyers asked prospective jurors indicated the case would cover a broad field and bring in prominent names if not the individuals themselves.

The prosecution wanted to know whether any jurors knew General Vaughan or if any of their close friends or relatives knew him. None had a personal acquaintanceship.

Elizabeth Bans Future Public Engagements Now

LONDON, April 17.—(AP)—Buckingham Palace announced today that Princess Elizabeth is cancelling all further public engagements—an indication she is expecting her second child this summer.

A similar announcement came from Buckingham Palace prior to the birth of Prince Charles in November, 1948.

Sir William Gilliatt, who delivered Prince Charles, again will serve in the same capacity.

The expected baby will be the third in succession to the throne. Princess Elizabeth is heiress-presumptive. Prince Charles is next in line. The princess will be 24 years old next Friday.

The London Sunday Pictorial said Sunday the princess would have her second baby in late July or early August. Currently the princess is visiting her husband Prince Philip, on the island of Malta where he is on duty with the Mediterranean fleet.

Safe Robbed In Golden Brothers Department Store

A safe robbery at the Goldman Bros. Dept. State, 219 North Beaton street, resulted in the loss of between $300 anad $400. The burglary occurred between closing time Saturday night and 7 p. m. Sunday when Labe Goldman discovered a hole in the ceiling of the store and the opened safe.

Goldman reported his findings to Police Chief Bruce Nutt. Nutt, in tracing the path of the burglar, said he entered the store by cutting a hole in the roof after getting on the roof from a nearby building.

Chief Nutt said the burglar entered the Stubbs paint shop, two doors south of the Goldman store, opened a window and crossed two roofs to the Goldman store.

On the roof of the department store the burglar cut a tin roof and then made a hole about two-foot square in the roof. The Chief said the burglar used a bit and brace to make the hole. He drilled 30 holes, Nutt said.

After entering through the hole, which was made near the center of the building, the robber crawled between the roof and a false ceiling to a spot near the front window. Here he made a hole in the ceiling and with the use of the shelving made entrance into the store.

The safe was located near the middle of the store. The bugrlar knocked the knob off the safe and then pried open the inner door.

Goldman told police he missed cash only and that neither checks nor jewelry in the safe were touched.

Chief Nutt said this was the first safe robbery in Corsicana in three years in which the burglar escaped.

"Apparently the knob-nocker wore gloves," the Chief said, "as we couldn't find a readable set of finger prints anywhere.

"As far as we can determine the burglar made his get-away via the same route as he entered."

Golmn told police his loss was covered by insurance.

'New Avenues Of Investigation' Are Organized by Subcommittee of Senate

WASHINGTON, April 17—(AP)—Senators looking into charges of Communism in the state department decided today to explore "new avenues of investigation." They were mysterious and close-mouthed about what that means.

Chairman Tydings (D-Md) used the phrase in announcing that the senate foreign relations subcommittee instructed its staff at a closed door meeting today to:

1. "Pursue particularly an investigation of all the evidence which has been produced so far" by Senator McCarthy (R-Wis.)

2. **Carry on "other specified investigations which the committee feels will be helpful in obtaining additional facts."**

Asked for information on the new line of inquiry. Tydings replied:

"For obvious reasons the facts will be more easily developed without their being publicized."

In replying to a question, Tydings said the broader investigation will be confined to finding out whether there are any disloyal employes in the state department.

The committee was created to investigate charges from McCarthy that the state department is honeycombed with Communists and their sympathizers.

Sunday the committee's chief counsel, Edward P. Morgan, served former Communist Louis F. Budenz with a subpoena. Budenz one-time managing editor of the Communist newspaper Daily Worker, is scheduled to testify at a public hearing Thursday.

McCarthy has said Budenz will swear that he knew Owen Lattimore, Far Eastern affairs expert, to be a member of the Communist party. Lattimore already has testified under oath that he never has been a Communist or a fellow traveler.

Lattimore said in a Philadelphia speech Saturday night that the U. S. should "disavow approval and support of the old government of China" headed by Chiang Kai-Shek.

At the same time he said this country should not recognize the new Communist government of China.

See SUBVERSIVES, Page 6

4 Of Every 100 Americans Work For Governments

WASHINGTON, April 17.—(AP)—Of every 1,000 Americans, 40 are on a federal, satate or local public payroll. And that doesn't include members of the armed forces.

The census bureau said in reporting that figure that the total number of public employes in October was at a record 6,204,000, or more than one-tenth of all U. S. workers (59,000,000.) Their pay for that month was $1,406,000,000.

That amounts to about $16,870,000,000 a year. The commerce department has estimated that when the 1,500,000 service personnel are included the total annual public payroll runs to about $21,800,000,000.

Of the total government workers, the federal government accounted for 2,047,000, the states 1,037,000 and smaller governmental units—cities, counties, schools, and the like—3,120,000.

MRS. KNUDSEN DIES

DETROIT, April 17.—(AP)—Mrs. Clara E. Knudsen, widow of en. William S. Knudsen, died early today at her home here after a long illness.

Air Force Buys 1,250 New Planes, Much Equipment

WASHINGTON, April 17.—(AP)—The Air Force will have bought about 1,250 new planes and aircrafte quipment, at a cost of approximately $1,300,000,000 during the 12-month period ending June 30.

Officials said the defense department will make these figures public soon, possibly within a week. The Air Force has been preparing them for several months, but the totals still are subject to change due to contract renegotiations and switches in specifications.

President Truman has asked $1,350,000,000 for new Air Force and navy aircraft in the fiscal year starting July 1, but some congress members have urged a boost of at least $500,000,000 in that sum.

The navy said last week that its purchases for the current fiscal year will come to about 700 planes at a cost of $235,000,000. Equipment is not included in this figure.

Foreign Ore Is Needed For Steel, Chapman Asserts

WASHINGTON, April 17—(AP)—Secretary of Interior Chapman said today the steel industry must look to foreign raw material sources because domestic iron ore supplies are approaching depletion.

He raised the possibility of restricted steel production within the "foreseeable future" as result of dwindling ore sources. That is the foremost problem facing the steel industry right now, the secretary said.

Chapman was lead-off witness in an investigation of the steel industry by a judiciary subcommittee inquiring into monopoly in busines.

Chapman said an increase of at least three per cent a year in steel production is necesary to keep up with th nation's rate of economic growth.

Chapman said ore production in the upper Great Lakes region will be reduced more than half within the next 15 years at the present rate of steel production.

He told the committee five companies control the bulk of the Lake Superior iron ore reserves, and three-fifths of the nation's steel production capacities.

"The decisions of these leading firms have significant impact on output and price of steel," he said. "There is little opportunity at the

See STEEL, Page 6

New Commission Due To Organize At Tuesday Meet

The organization meeting of the Corsicana city commission will be held Tuesday at which time Mayor Hubert T. Braselton will appoint the commissioners to their various assignments.

Also at this meting, the first reading of an ordinance to regulate the keeping of livestock, etc., within the city will be voted upon.

A. H. (Hays) Bonner, who headed the regular electiton will take the chair vacated by Travis Fullwood.

Another important matter to be voted on at the session will be the second reading of the amendment to the parking meter ordinance. This amendment will change the parking limit on Beaton street from two hours to one with no fractional time for pennies.

If the measure passes its second reading, the new time limit will go into effect on Beaton street in a short time.

It is also possible that some action will be taken on the proposed revenue bond issue to raise $300,000 for sewerage line and sewage disposal plant improvements.

Mayor Braselton said he hopes the commission will pass a motion encouraging the downtown clean-up, paint-up program which has been set for May 1.

Loyalty Board Procedures Are Again Upheld By U.S. Appeals Court Ruling

WASHINGTON, April 17.—(AP)—The U. S. court of appeals today reaffirmed its ruling that government loyalty board procedures are constitutional.

At the same time, in a 2-1 decision, it rejected claims by 26 post office department employes that they were victims of racial and religious discrimination and of decisions based "solely" on guilt by association. The group includes 12 negoes and eight Jews, from Cleveland, Philadelphia, Detroit, New York City and Plainfield, N. J.

The 26 brought a civil suit in district court here after receiving loyalty board notices of proposed removal action." The notices said the board had found reasonable grounds for belief that they were disloyel to the United States.

They were in various stages of the investigative procedure when they sued. Some had had hearings, some had been suspended, and some had not reached either stage.

District Judge Alexander Holtzoff dismissed their petition in the lower court and specifically upheld constitutionality of the procedure. They appeald from that ruling.

Justice Prettyman, writing the appellate court's majority opinion, held that most of the constitutional ground has been covered in previous rulings upholding the loyalty board processes.

The only new matters, he said, are the racial, religious and guilt by association complaints.

The justice said that government affidavits filed in the case demonstrated that neither the race nor the religion of the employe enters the proceedings."

Outlook For Next Six Months Termed 'Very Strong' Despite Unemployment

WASHINGTON, April 17.—(AP)—President Truman was advised today that the business outlook for the next six months, is "very strong" despite the unemployment problem.

The report came from Leon Keyserling, acting chairman of the President's council of economic advisers. Keyserling called at the White House with John D. Clark, fellow member.

They submitted a confidential quarterly economic report to Truman.

Keyserling told reporters later that while the report will not be made public the situation is "very strong."

"Whether you measure it by industrial output profits or business, sustained levels of consumer buying, automobile or steel production the outlook is very good," Keyserling said.

He added that March showed indications of "strengthened economic activity."

He said the country faces more unemployment because of a steadily rising labor force due to the increasing population. He added:

"Unemployment levels are not critical or dangerous but they are higher than they ought to be. We must strive for enough expansion and enough of new investment to reduce unemployment to lower levels and absorb the constantly increasing labor force."

He said that the council, in its January report, forecast a strong period of economic activity for the first six months of the year.

"We can now go further and say that the outlook for the next six months is even stronger than the outlook in January for the first half of the year."

WAR MEMORIAL GET APPROVAL OF ALL UNITS

New Institution Due To Be Ready For Use Early In 1952

Bids for the construction of the new 100-bed Navarro County Memorial Hospital will be opened Wednesday, May 24, at 2 p. m. at the courthouse.

This announcement was made late Friday afternoon by Joe D. Huffstutler, county judge, and H. R. Stroube, chairman of the executive committee of the hospital advisory board.

The new $1,600,000 plant will be dedicated to the war heroes of Navarro county. The bids to be opened May 24, however, are for only the main hospital building and do not include the proposed nurses' home to accommodate 28 nurses and students.

The announcement from Stroube and Huffstutler came following a letter from Wm. R. O'Connell, architect, Texas state department of health, hospital survey and construction division, written Thursday stating that "the working plans and specifications are approved" as of April 13, with certain minor changes. The federal hospital authorities in Dallas had also okayed the specifications and returned them to the state office.

Stroube said he had conferred with W. G. Clarkson and Co., architects, and state officials by telephone and all the conditions have been met.

The approval came one year and one day after Navarro county citizens approved the issuance of $550,000 bonds for the county's part. Public subscription of more than $250,000 was secured in a previous whirlwind campaign, and the federal and state governments through their health departments are providing a total of $800,000, or half of the cost of the entire project.

Originally the state and federal governments were putting up only $400,000—one-third of a $1,200,000 program, but when the federal law was changed shortly before the final application was filed, Navarro county was able to qualify for the additional $400,000 which is thought to be sufficient to provide the nurses' home and airconditioning throughout the hospital.

Advertisement for bids will be inserted next week in the Corsicana Daily Sun, the Dallas Morning News and the Texas Contractor.

One-third of the main building will be for air conditioning, ventilation, heating, plumbing, electrical appliances and drainage.

The four-story and basement structure will be erected on a 29.73-acre campus located immediately east of the IOOF Home between West Second avenue and Highway 22 in the northwest section of the city. It recently was incorporated in the city limits. Most of the site was acquired last year from the Grand Lodge of Texas, IOOF.

There will be 36-beds in private rooms, 32 beds in two-bed semi-private rooms, and 32 beds in eight four-bed wards.

The latest equipment throughout is scheduled to be installed as well as the best features discovered by members of the executive committee in visiting 30 hospitals for suggestions and ideas to be incorporated in the plans for the new structure.

A road is being constructed from Highway 22 to the hospital site. The first section was finished several weeks ago and following the rains of this week, the dirt work will be finished and it will be graveled. The road planned from the hospital site to West Second avenue will be constructed later.

Installation of water and sewer mains from West Second avenue to the hospital will be made within the immediate future, while power lines are also to be installed.

The new plant will replace the present P. and S. Hospital, in use since 1916.

Officials expect the new hospital to be ready of occupancy about Jan. 1, 1952.

Junior College Formal April 28

The spring formal at Navarro Junior College has been calendared for Friday evening, April 28, at 8 o'clock, with the Student Councill as sponsoring organization. Other students have been asked to assist on a committee arranging the affair.

James Fuller is president of the council. His committee includes Mary Frances DeGeorgeo, Alice Frederick, Mary Winstead, Martha Butler, Elmin Howell, Glenn Deavers, Johnny McCord, James Bradley and Don Granger.

An orchestra will be engaged for the dance. An advance sale of tickets has been planned.

POLIO PRECAUTIONS

RECOMMENDED BY THE NATIONAL FOUNDATION FOR INFANTILE PARALYSIS

WHEN POLIO IS AROUND, the National Foundation for Infantile Paralysis recommends these simple precautions: Keep children with their own friends and away from people they have not been with right along. Don't become exhausted through work or hard play. Don't stay too long in cold water or sit around in wet clothes. And always wash hands before eating. Watch for feverishness, sore throat, headache, upset stomach or sore muscles. They may—or may not—mean polio. Call your doctor and then, if help is needed, contact the National Foundation Chapter in your area.

Soil Conservation District News

District Supervisor Navarro-Hill Soil Conservation District—Morris Crawford, Chairman; W. C. Pearce, Vice-Chairman; Thad Jones, Secretary.

L. B. Mitchell, Barry Conservation group, has sloped and straightened a collective terrace outlet in preparation for sodding to bermuda grass with a sodding machine, by a local contractor. The field drain was very crooked and active. Land will be prepared by flatbreaking and discing.

A complete co-ordinated flood control conservation plan has been completed by the following landowners with the aid of technicians from the Corsicana Soil Conservation Service office: L. R. Hall, A. Voetmann, Joe Jelinck, Ernest Cummins, and Earl Bush.

J. M. Dyer, whose farm is one mile northeast of Corsicana, has sodded approximately 25 acres of pasture to bermuda grass with a sodding machine.

John McNutt, whose farm is one mile northeast of Corsicana, has sodded approximately 40 acres to bermuda grass to establish a base grass in his pasture. This was done by a sodding contractor with sodding machine.

Waxahachie Indians Blank Tigers To Gain Lead In Baseball Race

Waxahachie Indians knocked the Corsicana Tigers off their undefeated perch in the District 13-AA baseball race Friday by shutting out the Paynemen, 6-0 in Waxahachie.

The win left Waxahachie the only undefeated team in conference play.

Lefty Charles Rabe held the Tigers almost helpless, and drove in two runs in the first frame to start the scoring early. The Tigers could get but three scattered hits off the Indian hurler, who thus notched his fourth conferneee win for the Ellis countians.

Walter Bond pitched for the Tigers, and had a shaky first inning, walking the bases full to set the stage for Rabe's single that brought in two tallies.

Elsewhere in the district wet grounds caused postponement. Postponed until Monday were Waco's game in Hillsboro, and Cleburne's game in Temple.

The loss left Corsicana in second place in the district.

The first half of play in the district will be terminated next Tuesday afternoon, when Temple comes to Corsicana, Waxahachie goes to Waco, and Hillsboro to Cleburne.

The teams will begin the second round of district play next Friday afternoon.

Score by Innings

Corsicana	000 000 0—0
Waxahachie	221 010 x—6

Annual Muster Of Former Aggies Be Held On April 21

Navarro County former students of Texas A. and M. College will meet in the annual April 21 Muster at the Agriculture building of the Corsicana Livestock and Agriculture Show, according to an announcement. The Muster will begin at 7 p. m. Reservations are to be made not later than noon, April 20, with Roark Montgomery, 1555 West Fifth avenue, Corsicana, telephone 3229.

The annual Aggie Muster has been held for 47 years—since 1903, throughout the world where Aggies are found.

Wm. V. Mowlam, president of the Navarro county Club, urges all Aggies to attend.

Homage to former Aggies who have passed on is one of the features of the musters to be held in at least 375 places this year, and also the heroes who won the Battle of San Jacinto near Houston for Texas' freedom 114 years ago will be honored.

Former students are urged to bring their wives, families and others.

Hayes Bonner will serve the barbeque. Tickets are $1.25 per plate.

The dinner committee is composed of Tom H. Westbrook, III; George O. Gillespie and Edwin R. Daniels, all of Corsicana.

The muster committee is Roy Cloud, Kerens; D. W. Springer, Blooming Grove; G. A. Rogers, and Lon Ingram, both of Corsicana.

Miss McClintock, G. W. Talley Are Married Friday

Miss Dorothy Mae McClintock became the bride of Glenn Wesley Tally in a ceremony Friday evening in the home of the officiating minister, the Rev. E. L. Craig, pastor of the Eleventh Avenue Methodist Church.

The bride is the granddaughter of Mr. and Mrs. J. W. McClintock, 1112 North Beaton street, and the bridegroom is the son of Mr. and Mrs. Claude Tally, 609 W. Thirteenth Avenue.

Attending the couple were Miss Joy Stillman of Houston and James Harris of Dallas. Others present were Mr. and Mrs. Tally, Billy Joe Tally and Johnny Chirafis.

Attired in a blue suit with pale pink blouse and hat, the bride carried a white Bible topped with orchids. Miss Stillman wore a white suit with accessories in navy and white. Her colonial bouquet was formed of white carnations.

After a short wedding trip, Mr. and Mrs. Tally will be at home at 904 North Sherman, Ennis, where he is employed in the accounting department of Texas Power and Light company.

The bride is a graduate of Corsicana High School and for four years an employee of the business office of the Big Four Shoe store. Her husband was graduated from Corsicana High School and Baylor University.

Two Injured In Auto Collision Friday Afternoon

H. W. Keathley of Corsicana and Mrs. J. E. Raines of Marshall received painful injuries late Friday afternoon in a two-car collision at the intersection of West Second Avenue and Highway 22 here.

Keathley was taken by Corley ambulance to the Navarro Clinic, where X-rays divulged several broken ribs and bruises. Mrs. Raines, who was riding in a car driven by her husband, suffered lacerations about the face and forehead, a dislocated thumb and a fractured bone in the right wrist. She was taken by Griffin Ambulance to the Corsicana Hospital and Clinic, and was to be discharged late Saturday.

Mr. Raines was not hospitalized, sustaining only bruises.

City officers answered the call.

ANNOUNCEMENT

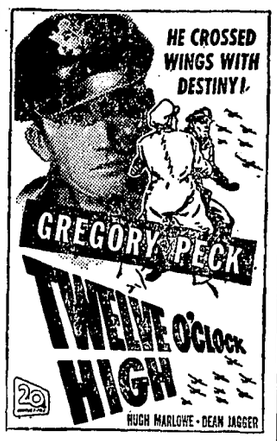

Elliott W. Adams, manager of the Waco Field office of the Social Security Administration, will be in Corsicana Tuesday, April 18, at 10:30 a. m. at the Texas Employment Commission headquarters.

Persons 65 or over who have been employed on jobs in industry and commerce should see Adams, find out about the old-age and survivors insurance account and get the latest and correct information. Such a visit may mean extra dollars to those affected.

Roberts Home At Chatfield Burns

Fire of unknown origin at Chatfield Friday destroyed the residence and possessions of a former Corsicana resident, Walter L Roberts.

The fire started about 1:30 p. m. and only the family car which was parked near the five-room house was saved. A nearby barn didn't catch fire.

A house fire about 5:30 p. m. Thursday at Roane demolished a house owned by Marvin Holley and destroyed all the possesisons of two families who were living in the residence.

33 Teachers Of Corsicana Take College Courses

Thirty-three public school teachers from the Corsicana area are enrolled in an extension course being offered at Corsicana high school by East Texas State Teachers College, Commerce. The course, "Personality Problems," is taught by Dr. Kenneth Evans, head of the sociology department.

Corsicana teachers enrolled are Mrs. Nova Truitt, Mrs. Harold Lee, Ralph L. Evans, Mrs. Bummie McReynolds, Ruth Riddlesperger, James E. Cummins, Thelma Conitz, Garland Matthews, Boyd Payne, Mrs. Boyd Payne, Julia Stewart, Mrs. Emma W. Bailey, Mabel Mabry, Mrs. Ballard W. George, Mrs. Jim Berry, Miss Estelle Smith, Edith Stewart, Mrs. Caroline Gray, Mrs. R. L. Arnold, Jr., Mrs. Ernestine Floyd, Julia Kiber, Mrs. H. P. Phillips, Mrs. E. F. Smith, Eva Holsey, Mrs. Seton T. Holsey, Miss Ella Louise Mathis and Colletus A. Rogers.

Other teachers in the class are Mrs. Dovie Lee Reed and Lois Estes, Roane; Mrs. Jim Head and Mrs. D. L. Garth, Ennis; Mrs. Sam Frost, Richland; Mrs. Vern Lansford, Purdon.

Each semester East Texas State offers extension courses at a number of Northeast Texas towns to allow public school teachers a chance to obtain college work while living at home.

GUARD INSPECTION

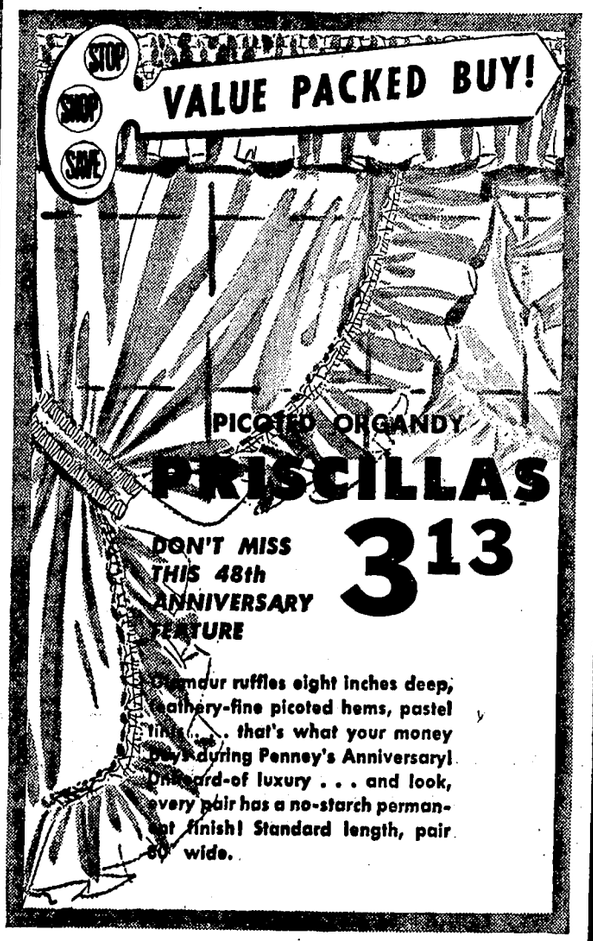

Lt. Col. Tom Spikes and Maj. Lynn Kirkland of the local National Guard units were in Crockett Wednesday conducting a Federal inspection of Battery B of the 133d Field Artillery Battalion, Texas National Guard.

CORSICANA, TEX., APR. 18, 1950

PRESIDENT VS. SENATE

When the Senate demands that the President turn over confidential documents and the President refuses, who will win? This question, brought up anew in the McCarthy affair, is an old one, and the result has always been the same.

A clear-cut case was the battle in 1886 between the Senate and President Grover Cleveland. The Senate would not concur in suspension of officials whom the President thought incompetent, without seeing the evidence on which the suspensions were based. It adopted a resolution, demanding the production of all such documents.

Cleveland's reply recalls J. Edgar Hoover's recent objection to turning over the FBI files to senatorial inquirers. The presidential documents, he said, consisted of "letters voluntarily written and presented by private citizens who are not in the least instigated thereto by any official invitation or at all subject to official control. Many of them are so irrelevant or in the light of other facts so worthless, that they have not been given the least weight in determining the question to which they are supposed to relate."

Public opinion backed the President, and the Senate ultimately dropped the issue. The law on which it based its claim was repealed later in the year. There could be no doubt who was victor in that fight.

NEW LIGHT ON CRIME

It used to be a widely held opinion that rural residents were more law-abiding and in general better citizens than their urban neighbors. With better transportation city and county dwellers got to know each other better, and dropped the baseless idea that the inhabitants of one region were better than those of another. It survives now only in the propaganda spread to justify discrimination in favor of rural areas. in the districting of seats in Congress or the state legislatures.

This lingering belief receives a blow from figures released by the Federal Bureau of Investigation. Crime increased in 1949 over the 1948 figures, the FBI finds, but the biggest increase was in rural areas. In cities the increase was 4.2 per cent, but in the country it was 8.5 per cent.

The explanation may well lie in the inadequacy of rural law enforcement. Constables are few and often are part-time workers. Sheriffs have a large territory to cover with few deputies. An alert criminal has an excellent choice of crossing a state boundary before the slow operations of the law get started.

More state police may be one answer. If not, rural counties with crime trouble should be prepared to spend more money on the improvement of their own police service.

DIPLOMATS, NEW STYLE

Be a career diplomat and see the world. The late Laurence A. Steinhardt, who lost his life in a plane crash, could have indorsed this sentiment. Ambassador to Canada at the time of his death, he had previously represented the United States in Sweden, Mexico, Peru and Turkey. By his experience he acquired not merely knowledge of diplomatic protocol and the other information that in the layman's eyes goes with a pair of striped trousers, but insight into the schemes of other nations. Russia, for example, was represented in all the countries to which Steinhardt was assigned; Russian maneuvers did not differ in principles, whether the scene was Turkey or Peru. Steinhardt had to be prepared for them ,and by all aced for them, and by all ac-

At the beginning of this century and before, a veteran diplomat was a rarity in our ambassadorial service. The top posts went to wealthy campaign contributors, who too often did this country little credit. There were brilliant exceptions, such as Charles Francis Adams, who, as Lincoln's representative in London, averted British intervention in our war. They were not many, however. Nowadays the choice posts are awarded by promotion from the lesser positions. In consequence, by and large our diplomatic service abroad is making a better name.

Edgar A. Guest

Copyright, 1949, Edgar A. Guest

FIVE.

Goodness gracious! Sakes alive!
Can you mean it? You are five?
I... it true that never more
I'm to say that you are four?

All the year to friends I've told:
"Little Jane is four years old."
Is it possible that I've
Now to change that "four" to
"five?"

You seem very proud and glad
One year unto four to add.
But a change so soon I find
Difficult to keep in mind.

Your forgetful grandpa makes
Many serious mistakes,
But in time he may contrive
To remember that you are five.

POLICE CARS

Safety experts declare that most highway accidents are the result of excessive speed. Signs indicating speed limits are ignored to a great degree, and it is obvious that many habitual speeders are kept in order only by visible evidence of public supervision.

The state of Michigan is conducting an experiment involving the use of unmarked police cars. The state police commissioner reports that eight times as many arrests have been made in this way as with plainly identified cars.

The driver who proceeds with an eye on the rear-view mirror and moderates his speed only when a police car comes in sight is undoubtedly fair game for the officer in an unmarked car. Those who consider the Michigan police tactics unfair can reflect that, obeying the law by driviing safely, they need have no concern as to the shape, color, size or identification marks of police cars.

Unfortunately the critics of such tactics against speeders have a sound argument in the fact that many areas have arbitrary speed limits which are long out of date, and no longer applicable to present-day highways, vehicles and variable driving conditions. There are some speed limits which are too high, incidentally, as well as many which are too low. A substantial contribution to general law obedience could be made by bringing traffic codes up to date.

Making dollars go a long way is usually laudable. But making some of them stay at home is a good trick too.

Purdon

PURDON, April 14—(Spl)—Mr. and Mrs. Russell Thorne and daughter of Brownwood, Mrs. Robert Garner and son of Corsicana, and Mr. and Mrs. W. H. Thorne of Angus spent Sunday with Mr. and Mrs. Albert Molsey.

Mr. and Mrs. Vernon Davis and children spent Sunday in Cayuga with Mr. and Mrs. Chester Kirk and Mrs. Jo Davis.

Mrs. T. H. Morgan and children of Tyler spent the week-end with her mother, Mrs. Annie Butler.

Mr. and Mrs. Nelson Ellis of Farmersville, Billy Mack Ellis of Waco and Mr. and Mrs. Jim Taylor of Corsicana spent Sunday with Mrs. Cora Ellis.

Mr. and Mrs. Walter Jackson and son, Robert, of Fort Worth, spent the week-end with Mr. and Mrs. F. C. Butler.

Registration For NJC Summer Term Be Held June 1-2

Registration for summer school classes at Navarro Junior College will be conducted on June 1 and 2. Classes will begin on June 5. There will be two six-weeks terms. The first term will end July 13, and the second term will end August 24.

Courses offered during the first term will be Education 133: Methods of Teaching in the Elementary School; Education 134: Child Psychology; English 131: Composition and Rhetoric; English 231: A Survey of English Literature; History 231: American History; Government 231: American National Government; Chemistry 141: Inorganic Chemistry; Chemistry 241: Organic Chemistry; Mathematics 131: College Algebra; Mathematics 241: Analytical Geometry. There is a possibility that General Biology and one agriculture course will be offered.

The two education courses offered will help satisfy the requirements for qualification of elementary school teachers under the Gilmer-Aiken legislation.

The summer program of the Navarro Junior College maintains the same high academic standards available during the regular term. The normal credit earned in six semester hours each semester of six weeks, or twelve semester hours for the entire summer session. Students may enroll for a four-semester-hour course and a three-semester-hour course per semester.

During the second six-weeks period, most of the courses will be continued or changes will be made if demand is sufficient.

The summer program is flexible, and courses will be added if enough requests are made. Prospective students may obtain more information by writing to the Office of the Registrar or by telephoning 2300.

Reports Feature Oak Valley HD Club's Session

An interesting and informational feature of the meeting of the Oak Valley Home Demonstration Club at the home of Mrs. Norman Chambers Wednesday was the series of reports by Mmes. J. W. Cobb president, D. B. Bennett, John Howell, Joe Rehders and W. A. Early, who represented the club at the district meeting in Carthage Tuesday.

The meeting was called to order by the president and Mrs. C. J. Colp led the group in singing "Juanita" and Brahms' "Lullaby."

Nineteen members and one visitor answered roll call with suggestions for future programs. The minutes and the treasurer's report were presented by Mrs. A. S. Fulton, after which routine business was transacted.

The resignation of Mrs. B. J. Acock as council delegate was accepted and Mrs. John Howell was elected to serve as delegate.

Mrs. Lloyd Cox gave a report on the recent sewing demonstration at White's Chapel, which featured directions on placing a zipper in a garment.

The recreational hour was in charge of Mrs. L. K. Carraway who conducted a humorous game titled "A Fun Trip Through Texas."

Announcement was made that the next meeting will be held at the home of Mrs. W. A. Early on April 27th with Mrs. Fletcher as co-hostess.

Fruit punch and white cake squares were served by Mrs. Chambers and co-hostess, Mrs. Will Smalling, with pansies as plate favors for the nineteen members and one guest, Mrs. C. R. Atkinson.

Mildred FFA Wins First In Dairy Judging Contest

Mildred's Future Farmers of America judging team won top honors at the Corsicana district dairy judging contest held at the State Orphans Home Saturday morning. Using the State Home herd, 32 boys representing nine teams were entered.

The Mildred team counted 915 out of a possible 1,200 points. Dawson and Fairfield tied with 810; Wortham and Milford had 795 each; Corsicana, 780; Waxahachie, 750 and Blooming Grove, 720. Italy the ninth club entered didn't have enough boys present to make a full team.

High individual honors were split among four entrants. John Whitten and Wesley Graves, both of Mildred, James Fannin, Corsicana, and Bobby Wilson, Italy, each counted 310 out of a possible 400 points.

Hershel Boyd, Mildred, and W. D. Love, Mildred each had 295, while Ben Broughton Dawson; Billy R. Vestal, Fairfield, and Glen McCommon, Wortham, each tallied 280.

By winning first place the Mildred school was awarded the traveling plaque, which must be won three years in a row to stay with any one team. Dawson won in 1949.

Judges were John S. Finch and Horace Hayes, both of Corsicana.

Livestock judging was being completed Saturday afternoon.

1.32 Inches Rain Recorded During 48 Hours In Area

Total rainfall in Corsicana for the 48-hour period ending Friday at 7 a. m. amounted to 1.32 inches, according to the government rain gauge. The precipitation Thursday morniing was .70 and that Friday .62 inch.

The prevailing cloudy weather has added to the benefits.

Farmers and those in close touch with the farming conditions are elated over the life-saving rains and predict that farming operations will be "humming" as soon as the fields dry sufficiently for the tractors to be used.

Cotton planting will begin next week in many sectitons, agriculture authorities have announced.

The slowness of rain caused all of the moisture to soak into the ground without any appreciable runoff.

Miss Eula Faye Threet was among the group that left for Lakeland, Fla., Sunday night to attend the American Baptist Association.

CORSICANA HIGH SCHOOL CHORUS SLATED TO PRESENT 'THE MOCKINGBIRD' APRIL 21

The costumes will be colorful and the dances will be gay when the Senior High School Chorus presents "The Mockingbird," a three-act operetta at Corsicana High School on Friday, April 21st, at 8 o'clock p. m., with Miss Erma Weidmann as director.

The main plot is a political one. It will be remembered that the French colonists resented it bitterly when New Orleans was ceded to the Spanish by the French King. This history is the basis of the operetta, but history has changed, according to Mr. Bradley who arranged the play, for in "The Mockingbird" the colonists band together, resist the Spanish and save New Orleans for France.

Enough romance is interwoven in the story to keep the main characters busy but no wedding actually takes place. The time is the seventeenth century.

Admision price will be fifty cents per person.

Minister Seeking Financial Aid For Man Suffering Heart Ailment

There is a 20-year old Corsicana man fighting for his life and needs financial help.

The Rev. Jack Goff, pastor of North Side Baptist church, is interested in the person who has a heart condition and needs expensive shots—amounting to some $7 or $8 per day.

"This boy, who has one of the finest spirits I've ever seen, is not on charity—neither is the family, but they've gone about as far as they can," the minister related Friday morning in discussing the case.

"He needs financial help for the treatments and shots," Goff added, and said anyone interested in helping such a deserving case can contact him.

The man is at home and does not need to be in a hospital, but does need help in financing the expensive medicine that will materially assist in his recovery, and the regaining of his health.

Powers Johnson Funeral Rites Are Held Friday

Funeral services for Powers Johnson, 83, who died at his home in Mildred Thursday, were held Friday afternoon from the Corley Funeral Chapel. Burial was in the Grady cemetery near Byrd, Ellis county. The rites were conducted by Rev. Peyton Goodman, pastor of the North Corsicana Methodist church, and Rev. Andy Paulson of Dallas. The Chambers Creek Masonic Lodge, No. 499, Byrd, conducted graveside services.

Native of Alabama, he resided at Byrd before moving to Mildred 26 years ago.

Surviving are two sons, C. W. and W. E. Johnson, both of Mildred, Three daughters, Mrs. L. A. Cunningham and Mrs. T. W. Green, both of Mildred, and Mrs. J. S. Bain, Ennis; a brother, John Johnson, and a sister, Mrs. Kate Armstrong, both of Alabama; 16 grandchildren and five great-grandchildren, and other relatives.

RED NOTE

CONTINUED FROM FIRST PAGE

that the Soviet aircraft returned the fire.

The American investigation has indicated that the only possible United States plans which could have been over Latvia was a navy patrol plane, missing since April 8 on a training flight. That plane was unarmed and had instructions to stay clear of Soviet territory.

Formal search for the missing navy plane has been abandoned

Reporters were told at the state department that the American reply to Moscow's April 11 protest has reached the drafting stage.

Michael J. McDermott, state department press officer, said "we have sufficient information to sit down and draft a note."

He told a questioner, however, that the department is not ready to say that the investigation is over yet.

Cayuga Blanked Kerens Bobcats; Richland Wins

Cayuga, Emhouse, Richland and State Home won their District 21-B baseball games Friday, all managing to play despite the fact that the grounds were wet in most of the contests.

The Cayuga-Kerens contest in Cayuga, and Emhouse's win over Dawson in Dawson were the best games of the day.

Cayuga, the only undefeated team in the race, had a hard time taking a 2-0 contest from Kerens. The Bobcats' Dink Reese pitched 4-hit ball, but Cayuga's Kelly let Kerens down with three hits. Both went the route.

Emhouse handed Dawson a 9-6 defeat, the second of the current district season for the Bulldogs.

State Home's Leon Hull and Huey Rush divided time on the mound to down the Mildred Eagles 11-7 at the State Home.

Tom Allen of Richland struck out 14 batters and hurled 3-hit ball as his mates blanked Wortham, 4-0. Richland's batters collected 8 hits off Wortham's Mathison, with two runs coming in the second, one in the fourth and one in the fifth. Tidwell, Herod and Orand led the hitting for Richland.

Two former residents of Corsicana, Mmes. Roland Martin and Lee J. Taylor, were elected vice-presidents of the Dallas Federation of Music Clubs at a business meeting of the organization Friday.

Texas City Marks Blast Anniversary

TEXAS CITY, Tex., April 17—(AP)—The third anniversary of the Texas City waterfront disaster that killed 560 persons was observed quietly Sunday.

No planned ceremonies were held, but the city's churches held brief memorial services during the morning.

It was 9:10 a. m., April 16, 1947, that the French freighter Grand Camp, carrying cargo including ammonium nitrate fertilizer compound, exploded fter catching fire several hours earlier.

The SS High Flyer, with a similar cargo, exploded early the next morning.

A series of explosions and fires initiated by the Grand Camp wrecked this city's industrial waterfront, killed the 560 people, injured thousands and caused millions of dollars in damages.

TWO NEGROES HURT

Two negroes received first aid for slight injuries at the P. and S. Hospital Sunday morning following a collision at Richland involving their car and one reported driven by William Peavy of Trinidad.

Lowell Spivey, 24, Route 3, Kemp, and Johnnie Mae Reeves, 25, Fort Worth, received first aid for lecerations at the hospital.

Funeral Services Mrs.C.C.Holloway At Kerens Sunday

KERENS, April 17.—(Spl.)—Funeral services for Mrs. C. C. Holloway, 47, who died at her home in Powell Friday night, were held from the First Methodist church here Sunday afternoon. Burial was in the Kerens cemetery.

The rites wee conducted by Rev. M. O. Southerland, pastor of the Powell Baptist church, and Rev. Carroll Thompson, pastor of the Methodist church here.

Surviving are her husband and son, John Allen Holloway, Powell; mother Mrs. J. A. Fields, Kerens; two brothers, D. F. Fields, Kerens, and Evan Fields, Houston; two sisters, Mrs. Homer Wassom, Powell, and Mrs. F. G. Huggins, Kerens, and other relatives.

Stockton Funeral Home directed.

T. E. Riddle, 104, Marks Birthday

AUSTIN, April 17.—(AP)—Thomas Evans Riddle, one of Texas' four living Confederate veterans, celebrated his 104th birthday Sunday.

Riddle said that he enjoyed the party more than when he was serving with Company I, 22nd Regiment of the Army of Tennessee on April 16, 1864—his 18th birthday.

Riddle, at the Texas Confederate Home for men, said he is especially proud to have fought under Gen. Robert E. Lee at Gettysburg, and he thinks the atom bomb is "pretty terrible."

He was born in Tennessee in 1846 and came to Texas in 1879.

Central Texas IOOF-Rebekahs Meet Wednesday

Many Odd Fellows and Rebekahs are expected here Wednesday afternoon and night at the annual Central Texas Odd Fellows and Rebekahs Association sessions at the IOOF Building.

Thirty-one lodges are expected to be represented.

Among the towns indicating they will send delegations are Ennis, Terrell, Kaufman, Will's Point, Grand Saline, Hillsboro, Mexia, Teague, Waxahachie, Jacksonville, Plano, Athens, Forney and Corsicana.

The visitors are also expected to visit the Home where considerable improvements and additions are under way. A new home for preschool children is the gift of the San Antonio Lodge No. 11, and one of the older structures is being remodelled for a girls' dormitory to care for the increased enrollment.

Approximately $50,000 is represented in the two projects at the home.

Mrs. Annie Whitten of Corsicana, president of the association, will preside at the meeting Wednesday afternoon. Other officers are R. L. Bishop, Corsicana, secretary, and Frank Hubbard, Kaufman, treasurer.

The local arrangements committee is composed of Mrs. A. E. Haslam, Dr. Lucille Dickson and Mrs. L. J. Foster.

Fairfield

FAIRFIELD, April 17.—(Spl.)—Mrs. E. J. Gilbert and Billy David Mayo of Houston spent the Easter holidays with E. J. Gilbert.

STATE WEATHER

CONTINUED FROM FIRST PAGE

broken, but even with the rain the wheat is just about gone. There will not be a full crop of wheat. Greenbugs have done their share as well as the drought. There probably will be a large acreage of grain sorghum planted where the wheat has been abandoned." Rainfall of 1.52 inches at Borger the last few days has brought the year's total to 2.02 inches as compared with 4.25 at this time last year.

In the upper Red River Valley, the outlook was somewhat brighter.

Wichita County Agent Max Carpenter said the grain crop is assured, with 40,000 of 70,000 acres to make a "fair to middling" yield.

The 2.58 inch total fall of the last few days has provided enough moisture for the present, he said, but more will be needed later. Sub-soil moisture is good to aid in the planting of cotton and legumes.

Total rainfall at Vernon, west of Wishita Falls was 2.18 inches. The rain was general over Wilbarger county, boosting wheat prospects, cotton and row crops.

In the Abilene area, the days of rain greatly benefited small grain and the range. Because of the slowness of the downfall, there was little run-off, with tanks catching water for stock. The total for the rainy spell was 1.94 inches, making a total for the year of 3.37 inches, compared with a normal of 4.34.

At Hillsboro, Cline T. Young, AAA manager, said Hill county farmers need only warm weather and sunshine after four inches of rain in four days.

In the Marshall area of East Texas farmers were waiting for sunny weather to get into their fields for planting, delayed by the rains. The area drew .88 inch of slow rain Sunday and last night.

Skies were clearing today at College Station after an overnight rain of two and a half inches.

Ranger, in Eastland county, had 1.68 inches of rain over the weekend to bring the total to 3.79 inches since the start Wednesday.

Bonham, in the Red River Valley, had a weekend rainfall totaling 1.15 inches. Rain was still falling there this morning.

Corpus Christi had its first good rain since early February early today. Cars were stalled in low places and water went into some downtown business places as an inch of rain fell in 35 minutes. The weather bureau recorded 1.01 inch of precipitation.

Galveston had an early morning soaker of 2.96 inches.

Skies were still overcast in most of the state east of Midland this morning, but the rains were breaking up and none forecast for tomorrow.

The five-day rainy period at least temporarily anchored the dusty soil in the Plains wheat-producing areas of Texas, Oklahoma and Kansas.

Texas rain totals for the 24 hours ended at 6:30 a. m. included: Austin 2.30 inches, Dallas 1.50, Houston 1.50, Corpus Christi 1.01, Galveston 2.96, Lufkin 1.78, Dalhart .39, Cotulla .75, Palacios 1.25, San Antonio 1.24, Waco 1.59, Beaumont 1.90, Wichita Falls 2.53, Bryan 2.82 Alice 1.09, Victoria .96, Bryan eral Wells .81, Junction .83, Tyler .78, Texarkana .54.

STEEL

CONTINUED FROM FIRST PAGE

present time for offsetting influence by smaller or new firms."

Chairman Celler (D-NY) said in advance of the hearings that the subcommittee intends to go into that industry "from stem to stern."

A senate-house committee just finished investigating the steel industry for alleged signs of monopoly in recent price iincreases.

The steel hearings are expected to run for about three weeks, Celler said.

After finishing with the steel industry, the subcommittee expects to take up Pan-American Airways, and the newsprint and distilling industries.

Celler, at a news conference Friday, said "Fear of reprisals" on the part of witnesses made it "advisable" to disclose a full witness list in advance of the hearings.

"Countles people have come to the subcommittee to say that they are being forced out of business, but they are afraid to testify for fear of reprisals," he said.

SUBVERSIVES

CONTINUED FROM FIRST PAGE

Lattimore proposed that those members of the United Nations which wish to do so be allowed "to vote to unseat the old Chinese delegation to the U. N. and seat a new one."

He added that direct relations between Washington and the Chinese Communist government "should wait until the Chinese government is willing to make dignified and honorable relations possible."

There were signs meanwhile that the two Republican members of the five-man inquiry committeea may not have had any advance word of the new phase of the investigation Tydings mentioned.

GAMBLING

CONTINUED FROM FIRST PAGE

graph and other rapid transmission facilities."

McGrath said the proposed ban would not interfere with distribution of legitimate sports news.

In the case of radio and television, McGrath said, the bill would require a one-hour time lag in announcing or showing the finish of a horse race. That would mean TV could use only a movie of a horse race.

McGrath said the time lag would make the broadcast of little value to bookmakers.

"We feel," he said, "that only the gambling interests, or those who stand to gain from the relationship of such broadcasts to gambling, will be hurt or complain.

"Lest anyone raise the charge that the brief time lag prposed for the broadcast of gambling information concerning horse races is censorship for the radio or television, may I hasten to point out that since 1934 congress has flatly prohibited, not merely delayed for an hour, the radio broadcasting of information concerning lotteries, which is a form of gambling with some wider commercial implications than horse racing."

The subcommittee's hearings may be in efect a preliminary to a later, broader senate inquiry into organized gambling and crime. Now pending in the senate is a proposal to create a special committee, backed by a $150,000 expense fund, to investigate organized crime.

McGrath said the department of justice has no desire or intention to move in on local law enforcement agencies in trying to police the illegal gambling operators.

But he said it does feel the proposed ban would be a big help to local law enforcement agencies trying to control commercialized gambling which "is not wholly local in its origins and support."

The attorney general said horse racing information is distributed by a central service to about 36 cities.

"This service is allowed to operate trackside in some places and excluded in others," he continued. "At tracks where it is excluded it uses various ingenious devices to obtain track information. This information x x is placed upon circuits, usually leased telegraph circuits, supplemented by long distance telephone, running to major cities of the country, from whence it is fanned out on other leased circuits, or in some cases, by local radio broadcasts.

Most of the 36 sub-distributors, McGrath said, regard themselves as publishers since they usually have small daily newspapers carrying racing news "and a smattering of general news."

He said bookmakers need rapid service to stimulate race betting and to "lay off" bets when too much money is placed on a particular horse. A "lay off" bet is a hedging operation to protect the bookie against too heavy a loss on a single race.

"It is quite evident," McGrath went on, "that the modern bookmaking operation is completely intertwined with the communications systems of this country; and that to deny the use of the facilities of interstate commerce to the organized gambling fraternity would be a knockout blow to their operations."

McGrath insisted that the freedow of the press was fully protected in the anti-gambling bill.

"To repeat," he said, "printed publication is completely exempt regardless of the source in information. Taking a very cogent example, the fact that the same central source which is supplying bookmakers with their rapid results information on horse racing may also be supplying the large press associations such as the Associated Press or United Press with flash results will not prevent the latter from continuing to receive information from that source and using it or further transmitting it for news publication, if the source can survive."

"This fairly simple test is arrived at x x x It is open to the party transmitting or receiving the information to lawfully continue if he demonstrates that the use is for a non-gambling purpose."

RAINS

CONTINUED FROM FIRST PAGE

streams of the county, most of which are tributaries to these two main drainage arteries, are emptying their loads of flood waters into these larger creeks.

No immediate danger is seen from overflows unless additional precipitation is received. The Trinity floodwaters that cause damage in this section originate in north and northeast Texas.

W. H. Walker, county agent, said:

"That's enough rain for a while—we now need sunshine and cotton planting."

R. J. (Bob) Clicque, PMA secretary, said:

"All we need is clear weather. The rains have fixed everything."

Clicque said that considerable cotton had been planted in the western section of the county and voiced the opinion that unless the cold, rains let up and sunshine is received, there is the danger of the planted seed deteriorating.

Considerable lightning accompanied the Monday morning rains following the high winds and slashing showers of Sunday.

The telephone company did not suffer any damage to wires and other properties, but the Texas Power and Light Company reported a dozen transformer fuses knocked out by the electrical disturbances in the rural areas. Navarro County Electric Co-Operative, Inc., reported trouble at Purdon, Silver City, Dawson, Blooming Grove, Emhouse and Kerens. One line was down near Emhouse, while blown fuses and open switches were reported at the other trouble points.

Clover, grass, small grains and gardens were materially benefitted by the precipitation.

The rains, however, have interferd with the scheduled beginning of the construction of two farm-market roads in Navarro county—the Emhouse-Cryer Cleek-Barry and Emmett-Dawson roads this week.

E. W. Hable and Sons, contractors, plan to begin these two projects that will connect existing all-weather roads and highways as soon as weather conditions permit.

County Reports

Reports from the county included:

Blooming Grove—Rained all day Sunday—everything is under water.

Frost—All tanks full—plenty of rain.

Dawson—A 2 1-2 inch rain since Saturday. Richland creek out of banks Sunday afternoon.

Richland—A good rain—Richland Creek coming out of banks.

Rice—Another big rain Sunday and Monday. Chambers creek out of banks.

Kerens—A 3-inch rain over the week-end.

Emhouse—Rain all day Sunday and Monday morning—high winds—trouble with telephone lines and electric power systems.

GEORGIA

CONTINUED FROM FIRST PAGE

"Federal courts consistently refuse to exercise their equity powers in cases posing political issues arising from a state's geographical distribution of electoral strength among its political subdivisions."

This was the only explanation the majority gave for its denial, except to cite a number of earlier decisions along the same line.

South and Flemang, in asking the high court for a hearing, declared:

"If the Georgia county unit system is permissible state practice, it will come to replace the white primary as the instrument of negro disfranchisement throughout those areas of the south which are still determined to find a means of preventing the black man from voting."

Georgia law assigns from two to six election units to counties, setting up a system somewhat like the national electoral college. Critics of the system say it gives rural counties up to 122 times more power per vote than city counties.

South and Fleming appealed from a decision by a special three-judge U. S. district court in Atlanta. The special court by a 2 to 1 vote said it is true that the system discriminates against city voters but federal courts may not intervene.

Cemetery Group Names Officers

The Pattison Cemetery Association met in the home of Mrs. W. W. Ray recently and elected officers for the coming year as follows:

Mrs. J. B. Collin, president; Mrs. W. O. Wetzel, vice president; Mrs. E. J. Brown, secretary-treasurer; Mrs. W. W. Ray, corresponding secretary; Mrs. Bill Stewart, historian; Mrs. J. W. Orven, parliamentarian.

What Causes Your Cough?

By W. P. BROWN
Of Johnson's Pharmacy

Smoking, nervousness, allergy, are all causes of an annoying cough. But a cough may also be an indication of a more serious ailment such as sinusitis, tuberculosis, chronic bronchitis, heart trouble, lung abscess, lung or chest tumor.

Coughing spells are weakening and embarrassing. When you have a cough that persists for more than a couple of weeks you should see a doctor. Finding and curing the cause of your cough is the only way to overcome it.

A doctor's prescription is the most effective medicine. Have it compounded of quality drugs by a pharmacist with an established reputation in his profession.

This is the 236th of a series of Editorial advertisements appearing in this paper each Monday and Tuesday.

Eight Unite With First Methodist

Eight united with the First Methodist Church at the morning hour Sunday, four by baptism, bringing the total uniting with the church during the Easter season to over ninety.

The pastor, Dr. Erwin F. Bohmfalk, preached from the subject, "The Christian Looks Forward," another sermon on the series of Faith in Immortality. The choir sang a special anthem. Additional offerings on the Easter special was made.

The pastor left after the service for Washington, D. C., to unite with some hundred other Methodist pastors from over the United States to study the workings of the federal government.

At the night hour, Rev. Jas. B. Sharp, associate pastor, preached from the subject, "The Beast of Revelations." The Junior Choir assisted the senior choir in the music and the congregational singing was led by John L. Gravelle.

At thet church school, the Brotherhood class and the Young Men's class met jointly to hear Tom Eady. The Youth Fellowship met at 6 o'clock. Boy Scouts meet tonight.

Jax Grab Fourth Consecutive Win

By The Associated Press.

The Jacksonville Jax rolled to their fourth consecutive win without defeat by rapping the Lake Charles Lakers, 6-2, in a Gulf Coast league encounter Sunday.

Poor Arthur scored early to win over Lufkin and Crowley overwhelmed Galveston.

For the Jax it was a clean sweep of their three-game series with the Lakers. Veteran Joe Hair set the Lakers down with only three hits.

At Galveston the Crowley Millers combined timely hitting and effective six-hit pitching to lick the White Caps 12-4 and move into second place.

Pounding starter Jim Noblett for 12 hits and eight runs in the first four innings, Crowley piled up a lead that was never threatened.

The Port Arthur Sea Hawks took the rubber game or the series with Lufkin, 8-5. The Hawks pulled two double steals, one in the third and another in the seventh.

HERE is a pleasant little game that will give you a message every day. It is a numerical puzzle designed to spell out your fortune. Count the letters in your first name. If the number of letters is 6 or more, subtract 4. If the number is less than 6, add 3. The result is your key number. Start at the upper left-hand corner of the rectangle and check every one of your key numbers, left to right. Then read the message the letters under the checked figures give you.

THE NATION TODAY
By James Marlow

By FRANK CAREY.
(For James Marlow.)

WASHINGTON, April 17.—(AP)—The Atomic Energy Commission's (AEC) latest keep-mum message to its workers is somewhat vague, but it seems to boil down to this:

The AEC doesn't want its hired hands to talk publicly about even non-secret *stuff on reactions involving* hydrogen if they relate those reactions in any way to the so-called "super bomb."

It's okay to speak about scuh *reactions in an academic way*—presumably in the same way they might discuss the theory of relativity. But please, boys, says the commission, don't hook these reactions up with a hydrogen bomb.

"The purpose of the commission's request on this matter," the agency says, "was to avoid release of technical information which, even though itself unclassified (non-secret), might have been interpreted by virtue of the project connection of the speaker as reflecting the commission's program with respect to thermonuclear (hydrogen bomb) weapons."

When the commission announced it had made this "request," it didn't say whether any of its staff had been speaking out of line.

Later a reporter recalled that shortly before the "request" an AEC staff scientist had talked to some Washington school teachers and said:

1. There are no theoretical liminations on the size of an H-bomb, although there are "practical limitations."

2. No one knows whether the idea of an H-bomb can be worked out, but if it can it might be possible to explode tankers filled with deuterium in a harbor, using an A-bomb as a detonator.

3. If an H-bomb were worked out—and a person were able to dig a hole of "unimaginable size and depth in the earth" and assemble enough hydrogen material in it—it might be possible to tear a moon-sized chunk out of the earth.

The scientist later told a reporter that this example was just an "oratorical exaggeration" to press home the point that there's no theoretical limitation on the size of an H-bomb. He said the "practical limitations are so enormous as to be insuperable."

The scientist stated that anything he said was based on published literature and not on any information supplied by the AEC.

When a reporter wanted to know what literature, the scientist listed a weekly news magazine (Time), a monthly magazine (Scientific American) and an article in the United Nations World.

The AEC declined to confirm or deny any of the statements made by its staff scientist.

After the commission sent out its keep-mum request to its workers, a reporter asked whether the scientists' talk had brought it about.

No, said the AEC—"the request would have been sent out whether or not he had made the talk."

Was the scientist's talk the sort of thing the AEC was trying to avoid?

All the commission would say was this:

"Any statement relating unclassified (non-secret) information to weapons would not be regarded as being in an appropriate area for comment under the language of the request."

Eugene May Of State Home Hurls 2-Hit Game To Trounce Cayuga

State Home's Eugene May hurled 2-hit baseball Saturday afternoon to upset the Cayuga nine and hand the Wildcats their first defeat in District 21-B baseball competition.

The game, played at the State Home here, earned the Laddies a place in the district playoffs. They won the contest, 5-3, and it ended the play in the east zone of the district.

As a result, the Laddies will play the first place winner in the west zone when thep layoffs roll around soon, and Cayuga will meet the second place winner in the west zone when the playoffs playoffs has not been set since there is one more week of regular district play in the west zone.

The Laddies, in their Saturday win from Cayuga, nicked Johnson of the visitors for nine hits. In winning, May turned in his third victory of the season against no losses.

Waxahachie Won District Flag In FFA Judging

Waxahachie copped team honors in the Corsicana District FFA Livestock judging contest with a score o 1320 out of a possible 1500 points. Thirty-five boys participated in the contests held at the State Home (hogs), Corsicana High (fat steers) and Allison Ranch for cows. Corsicana was second with 1200 points last week-end.

Other teams and their scores included:

Milford, 1170; Kerens, 1170; Blooming Grove, 1135, and Wortham, 1125.

Individual Honors

1. Windell Wolverton, Italy, 470 out of a posible 500.
2. James Almond, Italy, 455.
3 and 4 (tie)—David Giles, Milford, and Ralph Doxier, Blooming Grove, 440 each.
5. W. D. Howard, Waxahachie, 425.
6. Marvin Ingram, Waxahachie; Boyce Ross, Kerens, and Oliver Mesker, Corsicana.

Curtis Henderson, assistant Navarro county agent, was judge.

The Rev. and Mrs. A. J. Kirkland, Miss Eula Faye Threet and Billie Earl McGraw left Sunday for Lakeland, Fla., where they will attend the annnual session of the American Baptist Association which will convene on Wednesday and continue through Friday.

Saturday Meeting Of H-D Council At Kinsloe House

The Navarro County Home Demonstration Council met Saturday afternoon at Kinsloe House, with clubs from Barry, Corbet, Emhouse, Frost, Mildred, Kerens, Oak Valley, Pickett, Purdon, Pursley, Richland, Roane, Spring Hill and White's Chapel represented.

County Agent W. H. Walker met with the members, making suggestions concerning exhibits at the county fair.

Mrs. Harry Coleman and Mrs. E. F. Hubbard gave reports on the District 9 meeting at Carthage, which they attended, along with 22 other Navarro county women.

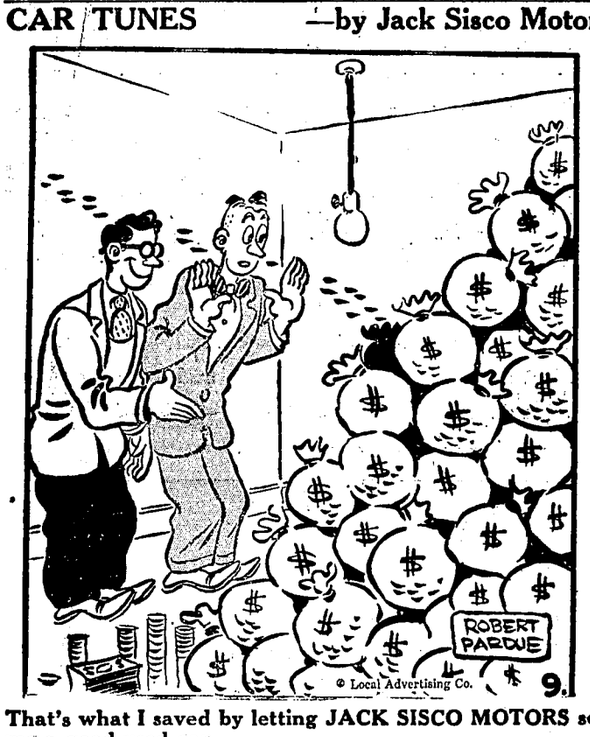

Mrs. B. G. Gorman reported that there had been 18 visitors and 6 new members in the clubs since last council meeting.

Korea was designated as the country to be helped by the Navarro county clubs. A list of 25 veterans now in hospitals will soon be given the council to be distributed to the clubs, which will try in various ways to make their lives a little more cheerful.

The Home Demonstration Club camp will be held at Trinidad on August 7 to 9. The 4-H Club girls will have a style show in May, with a specific date to be announced later.

A skit entitled "Hopeful Headlines" was presented by seven Oak Valley ladies as the entertainment program.

State Specialist Addressed April Meeting Of Agriculture Workers

Sam L. Adams, Temple, plans and training specialist for veterans agriculture, was the principal speaker Thursday evening at the April session of the Navarro County Agriculture Workers association. His address dealt with the accomplishments and work of the various agencies connected with the agriculture economy of the state. A musical program by the well-known Shaw twins of Dawson was a feature of the program enjoyed by the 60 present. The banquet was at the Navarro Hotel.

W. H. Butler, president of the association, presided and presented the various visitors. Ralph Evans, head of the veterans schools in the county, was the program chairman.

Songs given by the Shaw twins, Virginia Dell and Frankie Nell, with Mrs. W. V. Hill as accompanist, included "Are You From Dixie," "Let the World Go By," "Dearie," "Now Is the Hour," and "I Said My Pajamas."

Adams formerly was a vocational agriculture teacher at Mildred and Wortham in the 1930s. He now heads a staff of 20 state district supervisors, 184 co-ordinators, 1500 vocational agriculture teachers and 23,000 farmers in training.

Adams complimented Navarro county agriculture agencies for their fine co-operative spirit and said that the 100,000 acres devoted to legumes in Navarro county this year was a tribute to team work. He said this was the largest amount of legumes in any county in Texas.

Turning to his main address he discussed various agencies as follows:

Extension service — county agent's work and farm lease. The extension service is leading the cotton insect control program and he quoted figures showing the increased yield in areas where control measures were sponsored. The yield in Texas last year was the largest in 55 years, he said. He added that favorable weather conditions had much to do with the yield, but the insect control measures were also stressed as well as the soil restoration programs. The dairy program was mentioned.

PMA—He termed the PMA just the old AAA—the name changed due to Republican influence but still the old Democratic AAA. This agency is handling the cotton acreage reduction program and he said the Commodity Credit Corporation was providing storage facilities for the expected wheat and other grains harvest this year.

State Soil, Water and Conservation Board was termed one of the big and lasting agencies engaged in agriculture program. He termed it the people's program and is helping the soil conservation service.

Soil Conservation Service — is stressing the method of terace outlets and comparing it with the old, inadequate and wasteful methods and procedures.

Veterans program—He complimented the teachers for the outstanding results being attained.

"We're not wasting the public's money in the veterans' program," Adams stated as he quoted figures showing how the veterans schools were contributing to the national economy. He said that in the 3 1-2 years the program has been in progress, the farm shops alone have done an estimated saving of in excess of $3,000,000 in repairing machinery, etc.

The veterans in the farm program have put more money into the program than has the government, he added. He said the fourth year of agriculture instruction was now legal despite much opposition in certain Washington circles.

The veterans program will provide adult classes for non-veterans. Farmer adult classes will meet two times per month and he said he hoped a public demand for adult education could be secured as he stressed the need in that field.

Experiment stations — Studying legume programs and management, Adams quoted some of the results and findings, with particular emphasis to that section that will keep the water in the soil and prevent excessive run-offs.

High School Vocational Agriculture, Farmers Home Administration that builds houses, and others were discussed. The speaker quoted figures relative to the value of the agriculture agencies in comparison with the costs.

Oscie Cauble, manager of the local REA, reported he recently attended a national co-operative convention in Chicago.

W. A. Lang, president of the Farm and Ranch Club, told of the aims and purposes of that organization.

Mildred Future Farmers Win In Poultry Contest

The Mildred Future Farmers of the Corsicana district took top honors Thursday afternoon in a poultry-judging contest held in Waxahachie.

Neylan Drain of Emhouse won top individual honors, and was closely pressed by Wallis Boyd of Mildred, Richland Dunlap of Corsicana and Kenneth Pritchett of Mildred.

Second place in the team contest went to Ennis, with Corsicana getting third, Emhouse fourth and Italy fifth.

The award for the contest was a rotating placque, which was also won by Mildred in 1949.

Members of the Mildred team are John Whitten, Mildred; Kenneth Pritchett, Eureka, and Wallis Boyd of Eureka.

Copper Tooling, Etching Class May Be Formed

O. L. Slaughter, 2114 West Third avenue, plans the starting of a copper tooling and etching class here about May 1 and hopes to interest Boy Scouts and Camp Fire Girls groups in this work.

"It is a fascinating hobby and is not too difficult," Slaughter, a mechanic of the Magnolia Pipeline Company, pointed out as he exhibited specimens of his handiwork while telling of his plans.

The proposed class would be held on Saturday mornings, lasting about two hours.

Slaughter first became interested in his hobby through seeing how copper could be worked in a mechanic's magazine a number of years ago.

AG Teacher Gone On Alabama Tour

W. H. Butler, veterans agriculture instructor of the Advanced Agriculture class of the Navarro County Vocational Training School in Corsicana left Saturday for a tour of the agricultural areas of Talledega and Autauga counties of Alabama.

The purpose of the tour is to find out first hand how the farmers in Alabama have brought back some of the land to profitable crop production which was considered worn out years ago. A study of the fertilizers used, soil conservation work and other farm management practices will be made. While in Alabama, a visit to the famous Black Belt Agricultural Experiment Station at Marion Junction, Alabama, will be made.

LIFE-SAVING COURSE

Toby Morton, son of Mr. and Mrs. L. M. Morton of Corsicana and a student at North Texas State Teachers College at Denton, was pictured in a recent issue of the Dallas Times Herald as one of those taking a life-saving course in swimming at the Central YMCA in Dallas.

Dr. Thomas K. Cureton, professor of physical education at the University of Illinois, is conducting the course in Dallas.

Orville Langston Set New Discus Record Saturday

Waco High school retained the District 13-AA track and field championship Saturday in the annual Interscholastic League event held in Waco, with a total of 53 points.

Temple came in with 44 1-2 points for second place, and Cleburne nosed out Corsicana by 1-2 point for third place, 22 points to 21 1-2. Hillsboro and Ennis were credited with six points each and Waxahachie made two.

Orville Langston of Corsicana won the Tigers' only first places. He set a new district record of 135 feet in the discus throw, bettering the old ercord of 130 feet, 11 inches set by Bill Athey of Waco last year. Langston also took first in the shot put event, with a heave of over 42 feet.

Corsicana's sprint relay team, made up of Walter Bond, Orville Langston, Kenneth Bailey and Kenneth Stegall won the only Corsicana second place—in the sprint relay. The Tigers were beaten by a nose by the Temple team, which turned in a time of 46.7.

Winning third places for Corsicana were Howard Chapman, who hurled the shot 39 feet: Kenneth Bailey, who broad jumped 19 feet, 3 inches, and Benny Hardy, who pole vaulted 9 feet even.

Fourth places were taken by Howard Chapman when he tossed the discus 105 feet, and by Floyd Hawkins, Charles Stack, Joe Capps and David Corley, who turned in a fine mile relay performance.

David Corley tied for fourth place in the high jump with a leap of 5 feet, 8 inches.

Mr. and Mrs. Chas. Hagins visited relatives in Houston over the week-end.

College Student Hurt In Accident

Wymon Baggett, 23-year-old student in Henderson County Junior College at Athens, suffered a scalp laceration and minor head injuries about noon Sunday in an automobile mishap on Highway 31 near Chambers Creek.

Baggett's car is reported to have struck a bridge abutment hurling him from the car and dragging him on the pavement.

A bus drivin behind Baggett's car picked the injured man up and brought him to the bus station here, where he was transferred to the P. and S. Hospital.

Baggett resides at Cayuga, Route 1.

For County Clerk

Harry F. (Chick) Chesnut formally announced his candidacy for the nomination as county clerk for Navarro county subject to the action of the Democratic primaries.

Chesnut has resided in Navarro county for 32 years, and has been engaged in clerical and executive work for 25 years. He feels that he is well qualified to perform any duties required and promises if elected an economical, honest and courteous administration of this important office.

Your vote and influence will be appreciated.

Club News

Purdon Home Demonstration club met in regular session on Monday, April 3, in the home of Mrs. John Darden. Mrs. W. A. McCraw presided, with sixteen members answering roll call with a favorite flower. Lucille Darden, recreational leader, led the group in singing two songs and in a game of "Easter Egg Relay."

In the absence of the scheduled appearance of Mrs. Dryman, the program on pattern-fitting was given by sewing demonstrators, Mrs. E. F. Hubbard and Mrs. Alva Mitchell.

Each refreshment plate was attractively decorated with a tiny Easter basket. The next meeting will be in the home of Mrs. C. E. Thomas on Monday, April 17. In case of rain, meeting will be transferred to the home of Mrs. Eva McGehee.

Pursley H-D Club.

The Pursley Home Demonstration Club met on April 11 in the club room at the school, with 14 present and one visitor.

After routine business, Mrs. K. D. Pursley demonstrated sewing in zippers. A few games were played after which refreshments were served by Mrs. Edward Hardin and Mrs. John Mahoney.

The club will meet on April 19 with the county agent, Mrs. Dryman.

Black Hills Youth Are Party Guests

The young people of Black Hills Methodist church were entertained at the home of Rev. and Mrs. J. F. Adams Wednesday evening. Games and contests of various kinds were enjoyed during the evening after which a refreshment plate consisting of sandwiches, potato chips, pickles, home made cakes, and soft drinks was served.

Golden Wedding Celebration Set

Mr. and Mrs. A. L. Dunagan will observe their golden wedding anniversary Sunday, April 30, from 2:30 p. m. to 5:30 p. m. at the Lyntegar Electric building, Tahoka, Texas, according to announcement received by friends. Mr. and Mrs. Dunagan resided in the Emmett community for many years before moving to Tahoka.

Bishop Martin Fills Pulpit At Eleventh Avenue

Bishop William C. Martin told the congregation at the Eleventh Avenue Methodist Church Sunday morning that these are the times for Christian men and women to demonstrate that God has put something into their lives to help them.

The resident bishop of the Dallas-Ft. Worth area pointed out that there are more than 700 million Christians in the world. and that Christianity is still growing. This was in answer to the question as to whether or not Christianity is doing what is expected of it.

Attendance at both sessions on Sunday was good. Rev. Leroy Brown, who is conducting services at the Eleventh Avenue church each day this week, brought the evening mes ge.

Morning services of the devotional type will be held at 9 a. m. each day this week. The evening services, set each night at 7:30, are more on the evangelistic type, and are aimed at those who cannot attend the morning meetings.

A. A. Copeland is leading the singing at the services this week. The meetings will be the center of church activity during that time.

"More Wheat" Bread Prepared For Law-Makers

AMARILLO, April 17.—(AP)—Bread 'like mother used to bake" shared attention with talk of a new government wheat program today at a meeting of the Texas Wheat Producers association.

Officially, the bread is called "more wheat" bread. It contains 16 per cent more wheat than ordinary commercial loaves. Wheat growers hope the new bread will help eat up wheat surpluses.

The new bread was originally suggested by Morris Coover, Kinsley, Kans., businessman. Congressmen, senators and other government officials have been given samples. Two hundred loaves were to be served at the meeting here today.

The Texas wheat growers hope to work out plans for a suggested new government wheat program for presentation to the National association meeting at Kansas City April 21-22.

According to Carl Kuper of Dalhart, president of the Texas group, one suggestion is a two-price system—surplus wheat to go at the market price, but wheat needed for domestic use and export to be sold under a price-support floor.

Census Is Ahead Of Schedule In Sixth District

The percentage of work completed by census enumerators in the sixth district was 100 per cent plus this past week, according to J. B. Smith, assistant district census supervisor.

Through Friday, the enumerators had counted 148,916 units in the combined population, farm and dwelling census in the district, and had enumerated 109,212 persons. The quota for that period was 148,000 units.

Smith said the counting had been completed in about one-seventh of the enumeration districts. Fifty enumeration districts have been counted out of a total of more than 350, he said. These figures were as of Friday.

Twelve enumeration districts in Navarro county out of approximately 70 have been completed, he added.

Former enumerators now are working on tabulations of the enumerator's reports. It is not known when any population figures will be released.

According to revisions of the census laws, no count can be given on any city or town unless it exceeds 10,000 and only total figures on counties can be given when the county is completed.

Corsicana High School Golfers Annexed District 13-AA Tourney

Cirsicana high school golfers swept the first places in team and medalist play Saturday in the first District 13-AA golf meet sponsored by the Texas Interscholastic League.

The Tiger golfers took first and fourth places in the team play at the Waco Municipal Golf Course, and Claude Roberson of the Tiger team work medalist honors.

Second place in the team play went to Waco, and third to Temple. Second place in medal play went to Waco's Eddie Parma, who won an extra hole from Ben Chandler of Temple to win the right to go with Robertson to the regional in the near future. The Corsicana first team and the Waco team will also be in the regional.

The battle with Waco for first in team play was very close. Corsicana and Waco were tied at the end of 9 holes, 18 holes and 36 holes. Playing No. 10 extra hole David Woolley sank a putt from far out to give the Corsicana team a score of 19, one better than Waco.

Cleburne was the fourth team entering, and did not place.

Claude Roberson's 159 won him unquestioned first place in medal play. Eddie Parma of Waco and Ben Chandler of Temple tied for second with a 161 each, and Parma won the extra hole.

Coach George Gingrich was well satisfied with the play of his team. A high wind and frequent showers plagued the contestants.

The Tigers brought back two trophies and 8 medals.

The Corsicana team scores follow:

FIRST TEAM

	1t 18	2d 18	To.
Wynne Woolley	...84	91	175
Claude Roberson	..79	80	159
Johnny Garner	85	85	170
David Woolley	95	91	186
			690

SECOND TEAM

Orrie Harris	95	92	187
David Criddle	102	97	199
J. Butler	103	98	201

Heart Attack Is Fatal Saturday To T. W. Tisdale

Thomas W. Tisdale, 74, long-time Birdston and Streetman resident, died Saturday with a heart attack.

Funeral services were held Sunday afternoon from the First Baptist church in Streetman. Burial was in the Birdston cemetery. The rites were conducted by Rev. H. L. McKissack, Baptist minister of Teague, and Rev. Frank Steele, Mexia. The Streetman Masonic Lodge conducted graveside services.

Surviving are his wife of Streetman; a daughter, Mrs. Charles Folmar, Corbet; a son, Tommy Tisdale, Houston, and another son who resides in South Texas.

Burleson Funeral Home directed.

Mrs. Rose Nelson Hughes, former Corsicanan, will be one of six Dallas women who will preside at the mirror-topped tea table when Mrs. Jack Elliott entertains at the Dallas Woman's Club Tuesday in honor of her new daughter-in-law, Mrs. Elliott.

Numerous Fine Matches Turned In On Saturday

By TALMAGE CANANT
Sun Sports Staff

Gilbert Stubbs led a field of 44 contestants with a sizzling 69 Saturday as the qualifying round for the annual Corsicana Country Club golf tourney came to an end.

After a complete layoff of almost six months, the slender local golfer with the picture swing came back to the tourney he hadn't intended to enter and took low medalist honors.

In three practice holes Saturday, Stubbs took three birdies, decided he was right, and officially entered the meet. His closest opponent was Jack Stroube, whose 72 landed him place 16 in the championship flight.

Leon Taylor of Tyler, who was in the finals last year against Johnny Henry, returned to card a fine 73.

Next lowest qualifying score belonged to Wynne Woolley, high school clouter who racked up a 76. Rip Lang was close behind with a 77. Also in the championship flight was Lynn Adams of Mexia, who shot a hole in one in qualifying Wednesday and carded a 78.

Lonnie Beasley, another regular contender of the annual event, also carded a 78 in qualifying for the championship flight.

Barbecue and Party

Despite a drizzling rain, a sizeable crowd gathered at the clubhouse Saturday night for the annual barbecue and party marking the closing of the qualifying round. While not the largest affair of recent years, from the point of numbers, the party was a fitting preamble to the 1950 event. J. C. Roe is the chairman of the tourney.

First round play in the tournament was scheduled to get under way yesterday, but rain interfered, and completion of that phase is slated by Saturday of this week. Finals in the tourney come on May 7, a few days before the opening of the annual Corsicana Country Club Invitational.

Championship Flight

Gilbert Stubbs, 69, vs. Alex Hickey, 81

Paul Bruce, 79, vs. Bill Coulson, 83.

Rip Lang 77, vs. Buck Woolley, 83.

Russell Purifoy Jr., 98, vs. Tom Spikes, 113.

Tom Eady 99, vs. Jack Love, 101.

Aged Negro Burns At Dawson Friday

A 90-year old negro, Cook Crowder, was fatally burned in a house fire at Dawson Friday. Judge Joe P. Davis said Crowder was found in a bedroom of the house, which was totally destroyed.

A granddaughter, who lived with Crowder, left for town before the fire started and her grandfather was alone in the house. The fire was discovered about 8 a. m. and it is believed the blaze started in the kitchen.

Pvt. Still Hunts U. S. Navy Plane

Pvt. Max Still, son of Mr. and Mrs. C. A. Still is a member of one of the U. S. Air Force crews seeking the missing Navy plane in the Baltic area.

His parents received a letter from him Friday mailed in Copenhagen, telling of his participating in the search. Still's headquarters are in Germany.

Mr. and Mrs. Raymond Van Hook visited in the home of Mr. Van Hook's sister, Mrs. Estelle Skelton, Saturday night and Sunday morning.
